

"I think the most important way to create a strong bond is just to listen."

About Natali Brown Gonzalez, MD, MBA

Dr. Natali Brown Gonzalez always had an interest in helping people, but she explains that her passion for healthcare accelerated after the passing of her grandparents. "Preventative medicine became my new focus, in hopes that one day I may be able to provide quality care to my patients and allow them to feel comfortable enough to trust me with their care," she says. Connecting with patients is her favorite part of being a physician. "I think the most important way to create a strong bond is just to listen," Dr. Gonzalez says. She takes an "integrative approach to healthcare" and always keeps patients' goals in mind.

In her free time, Dr. Gonzalez loves spending time with family. She also enjoys hiking and going to the beach.
